

Ontuitive

1732 Wazee Street | Suite 202

Denver, Colorado 80202

Solutions Developer

Location: Denver, CO

About Ontuitive:

Ontuitive is a leading provider of learning and performance support software solutions that accelerate worker adoption of software and performance of key business processes for large organizations. We do this by putting actionable guidance in our customers' hands when they need it, while they work, within 2-clicks and 10-seconds. For over 12 years Ontuitive has been providing customers with the enablement technology and know-how that makes better performance happen.

Job Overview:

As a Solution Developer at Ontuitive, your primary responsibility will be to create, write and manage user documentation for Ontuitive's suite of learning and performance support software solutions. You will coordinate on cross-functional teams to determine content and training needs. Assess, test and document new and upcoming product features. Execute internal processes to create documentation and content. Create new courses, classes and tools to update current offerings. Internally, you will work with account managers and product consultants to ensure a successful implementation of customer and internal quality assurance testing.

Requirements:

- Bachelor's degree in communication or journalism and 2-3 years of experience in web related development.
- Ability to work both independently and with a team
- Written and verbal skills
- Strategic thinking skills
- Analytical skills
- Keen eye for detail
- Ability to work on multiple projects simultaneously
- Proficiency with content management software
- Basic knowledge of HTML

Why work for Ontuitive?

- Competitive salary with excellent benefits, bonus
- You'll never be bored, every day is a new and different challenge
- High growth company, small close-knit team
- Consult with some of the best companies in the world.

Qualified candidates please send cover letter and resume to Briana Milligan (b.milligan@ontuitive.com) and Brittany Harrison (b.harrison@ontuitive.com).
