
Senior Software Engineer

Location: Denver, CO

About Ontuitive:

Ontuitive is a leading provider of learning and performance support software solutions that accelerate worker adoption of software and performance of key business processes for large organizations. We do this by putting actionable guidance in our customers' hands when they need it, while they work, within 2- clicks and 10-seconds. For over 12 years Ontuitive has been providing customers with the enablement technology and know-how that makes better performance happen. Ontuitive is seeking a Senior Software Engineer to join its development team.

Qualified candidates should demonstrate:

- Strong computer science foundation – BS or MS in computer science or related field
- Solid understanding of data structures, algorithms, and object-oriented programming
- C# / .NET experience
- Meaningful JavaScript experience using object-oriented JavaScript and/or functional programming, with experience in modern JS frameworks such as Angular, React, or similar (Angular preferred)
- Know how to use CSS in an elegant way as part of an overall software architecture (object-oriented CSS or similar patterns)
- Strong understanding of AJAX and REST API design and implementation
- Deep understanding of browser paradigms including DOM structures, browser-based development tools, etc.
- SQL database experience
- Experience with cloud-based projects working at scale
- Experience in agile software development methodologies
- Domain knowledge of content management systems and wikis is a plus

In addition, candidates should exhibit excellent communication skills, be able to work effectively with other team members, and have a desire to craft impactful solutions that delight our customers.

Why work for Ontuitive?

- Competitive Salary with excellent benefits
 - Full Medical/Dental
 - 401k
- You'll never be bored, every day is a new and different challenge
- High growth company, small close-knit team
- Consult with some of the best companies in the world to deliver Ontuitive's software products

Qualified candidates please send cover letter and resume to Briana Milligan (b.milligan@ontuitive.com).
